The screenshot displays the Rosie Makes website interface. On the left, a vertical list of products is visible, including 'Strawberry Jam' and 'A taste of summer'. The main content area shows a detailed view of the 'Strawberry Jam' product, featuring a brown background with the text 'Rosie Makes... Strawberry Jam' and 'A taste of summer'. Below this, there is a section for 'Ingredients' and 'Instructions'. On the right side, there is a confirmation dialog box with the title 'Download artwork'. The dialog contains a checkbox labeled 'Confirm this download will use 1 credit', a text input field for 'Give your artwork a name' (with 'Strawberry Jam' entered), and a red button labeled 'Confirm & Download'.

Rosie Makes Jam: Strawberry Jam Test

The image shows a digital product label for 'Rosie Makes Strawberry Jam'. The label is divided into several sections. On the left, there is a white box containing text: 'Refrigerate after opening and consume within 6 weeks', 'Prepared with 50g of fruit to 100g', 'Total sugar content 62g per 100g', 'Best before date:', a recycling symbol with the text 'Please recycle this container', and 'Weight: 280g'. In the center, there is a brown box with the brand name 'Rosie Makes' in a stylized font, followed by 'Strawberry Jam' in a script font, and the tagline 'A taste of summer' at the bottom. On the right, there is a white box with the heading 'INGREDIENTS' and the list 'Strawberries (50%), Sugar (50%), Lemon juice.' Below this, the website 'rosiemakesjam.com' and the address 'The Smithy, Burley Oakham, LE15 7TB' are listed, along with the phone number '01572 723 723'. At the bottom of the label, there is a red button with a white download icon and the text 'Download', which is circled in red. Next to it is a button with a white folder icon and the text 'Open'.

Merging Label Artwork with Best Before Overlay

Once you have created Label artwork and an Overlay artwork they can be merged together. Typically you would create a library of labels for say Strawberry Jam, Raspberry Jam and Blackberry & Apple Jam etc. You then create a Best Before overlay with, for example "March 2016". You can then merge a Product Label with the Overlay to produce, say, a Strawberry Jam label that has "Best Before March 2016".

As time passes and the BB date needs to move on, to say August 2016, simply create new Overlay label with that date. When you need to label your next Raspberry Jam batch you merge the Jam label with the new August 2016 overlay.

This means you don't need to redesign and buy a new Strawberry Jam label when you need to change the BB date. In practice you'd create 3 to 4 BB overlay labels per year at a nominal cost and keep reusing the original product labels for each batch/print run.
