

DEHYDRATING

Rosie's Preserving School

PRESERVING PRESERVING

Equipment List

For this workshop it is going to be an introduction to food dehydration.

There is nothing that we can complete in the time and instead we will look at a whole range of possibilities which will be a starting point for more ideas throughout the rest of the year.

Whether you just want to make store cupboard items, get ideas for camping, walking or sailing,

maybe ingredients for baby food is your thing or you need inspiration on new products to sell - I am certain that you will find something of interest.

So grab a notebook and a cup of coffee and be prepared to scribble away for whatever grabs your imagination.

Don't stress about getting the equipment right or if you don't have certain bits of kit - there is always a way round it! The workshops will be relaxed and there is almost nothing you could come up with that hasn't been solved before - the aim is to enjoy it!
